Evaluation Note:

Weight Redistribution

To ensure a fair and balanced evaluation process, weights assigned to evaluation criteria must reflect the relevance and responsibilities of the staff member's role. If a specific category does not apply to a staff member, the weight of that category can be redistributed among other relevant categories. This ensures that the total weight of all categories remains at 100%.

Step-by-Step procedure for Weight Redistribution

1. Remove the Weight of the Non-Relevant Category
- Identify the category that does not apply to the staff member's role.
- Subtract the weight of this category from the total weight (initially 100%).

2. Redistribute the Weight
- Distribute the removed weight proportionally across the remaining categories.
- Redistribution should reflect the relative importance of other categories to the staff member's responsibilities.

Lab Technician/Demonstrator Annual Performance Evaluation Form

Employee Information:

Employee Name & Emp: No.: .....

Department/Program: Mechanical.....

Position/Title: .=.....

Evaluation Period: .....-..... (Eg:1st Jan 2024 – 31st Dec 2024)

Evaluator Information:

Evaluator Name: .....

Position/Title: .....

Date of Evaluation: .....

Part I Professional Attributes (15 Points)

1. Presentability and punctuality (3) • No more than 2 days of coming in late per month • Leaving early is not an approved practice • Adherence to the Attendance policy • Personal grooming and frequency of formal attire	
1. Comments:	
2. Adheres to the institution's academic policies (6) • Lectures are not to be cancelled and conducted with LOs and Assessments in mind • Weekly supervision is not to be reallocated or missed during any week. • Setting Assessments prior to Unit/Module commencement • Assessment handouts are to be made as planned without delays, including exams and briefings. • Ensuring student status updates are documented in a timely manner	
2. Comments:	
3. Collaborates with colleagues & Supervisor(s) (6) • Ensuring HoD approval is sought for any deviation in the standing procedure • All collaborative matters are done with the HoD being informed • Interdepartmental staff usage is done via the managerial structure • Accurate and timely communication across departments, including Admissions, Registrar, and Finance. • Appropriate collaboration during the conduction of examinations, live feedback, labs.	
3. Comments:	
Total over 15	0

Part II Demonstration Excellence

1. Technical Skills (15 Points)

4. Proficiency in Equipment Use: Ability to operate lab equipment safely and effectively (5) • Demonstrates proper handling and setup of all lab equipment • Follows correct operational procedures consistently • Ensures equipment is used according to safety standards • Performs basic maintenance and calibration when required • Minimizes equipment misuse, damage, or operational delays	
4. Comments:	
5. Lab Techniques: Knowledge of relevant lab techniques and procedures (5) • Applies correct methodologies in conducting experiments • Demonstrates strong understanding of standard lab protocols • Maintains accuracy and precision in lab processes • Prepares and handles samples in accordance with best practices • Adheres to proper documentation of procedures and results	
5. Comments:	
6. Troubleshooting: Ability to identify and resolve technical issues with equipment or experiments (5) • Quickly detects operational problems or experimental errors • Uses logical steps to diagnose root causes • Applies appropriate corrective actions with minimal supervision • Ensures continuity of lab operations by resolving issues promptly • Communicates unresolved or complex issues to the HOD effectively	
6. Comments:	
Total over 15	0

2. Safety and Compliance (10 Points)

7. Adherence to Safety Protocols: Consistency in following lab safety guidelines and regulations (5) • Consistently follows all established safety rules and laboratory regulations • Wears required PPE (gloves, lab coat, goggles) when required without reminders • Ensures proper handling, labeling, and storage of equipment • Maintains a clean, organized, and hazard-free work environment • Reports safety concerns, hazards, or incidents promptly and appropriately	
7. Comments:	
8. Emergency Procedures: Understanding of emergency protocols and response plans. (5) • Demonstrates clear knowledge of emergency response steps (fire, injury, etc.) • Knows the location and correct use of fire extinguishers, first aid kits, and exits • Remains calm and acts responsibly during emergencies • Guides students/staff safely	

• Follows reporting procedures accurately after emergency events	
8. Comments:	
Total over 10	0

3. Communication Skills (15 Points)

9. Clear Instruction: Ability to convey complex information clearly to students and staff. (5) • Explains laboratory concepts, procedures, and safety guidelines in an understandable manner • Breaks down complex processes into simple, step-by-step instructions • Uses appropriate language and examples based on student/staff understanding level • Checks for understanding and clarifies doubts without hesitation • Provides instructions that are structured, precise, and easy to follow	
9. Comments:	
10. Documentation: Proficiency in maintaining accurate lab records and documentation. (5) • Records experiment details, observations, and results accurately and consistently • Maintains well-organized logs, sheets, and digital records according to lab standards • Ensures all documentation is complete, legible, and updated promptly. • Follows proper procedures for storing, labeling, and securing the lab. • Demonstrates attention to detail by minimizing errors, omissions, or inconsistencies in records	
10. Comments:	
11. Feedback and Interaction: Responsiveness to student inquiries and ability to provide constructive feedback. (5) • Responds promptly and respectfully to student questions and concerns • Provides clear, helpful, and constructive feedback to support student learning • Encourages students to ask questions and engage in discussions • Adjusts communication style based on student needs and understanding levels • Maintains a supportive and approachable attitude during interactions	
11. Comments:	
Total over 15	0

4. Organization and Conflict Management (30 Points)

12. Lab Preparation: Effectiveness in preparing materials and equipment for lab sessions. (5) • Ensures all required materials, tools, and equipment are prepared before lab sessions begin • Sets up workstations, instruments, and resources accurately according to experiment requirements • Verifies equipment functionality and calibration before use • Anticipates lab needs and prevents delays by maintaining readiness for scheduled activities	
12. Comments:	
13. Prioritization: Ability to manage multiple tasks and prioritize effectively under time constraints. (5) • Identifies and focuses on the most critical tasks to ensure smooth lab operations • Manages workload efficiently, even during peak periods or tight deadlines	

• Adjusts priorities as needed based on urgency, safety, and instructional requirements • Completes assigned tasks promptly without compromising quality • Demonstrates good judgment in balancing multiple responsibilities simultaneously	
13. Comments:	
14. Inventory Management: Skills in managing lab supplies and equipment inventory (5) • Tracks and updates inventory records accurately and consistently • Monitors stock levels to ensure timely replenishment of materials and consumables • Properly labels, organizes, and stores supplies to maintain easy accessibility • Identifies shortages, damages, or expired items and reports them promptly • Uses resources efficiently and avoids unnecessary waste or overstocking	
14. Comments:	
15. Contribution to Lab Environment: Engagement in creating a positive and productive lab atmosphere. Use of diverse strategies to motivate and inspire students (5) • Promotes a supportive, respectful, and inclusive environment within the lab • Demonstrates enthusiasm that encourages student interest and participation • Uses strategies such as guidance, encouragement, and real-life examples to inspire learning • Helps maintain a calm, organized, and focused atmosphere during lab activities • Actively supports teamwork and positive interactions among students	
15. Comments:	
16. Contribution to Lab Environment: Engagement in creating a positive and productive lab atmosphere. Use of diverse strategies to motivate and inspire students (5) • Creates a welcoming, respectful, and inclusive lab environment for all students • Encourages active participation through positive reinforcement and supportive guidance • Uses a variety of motivational strategies (examples, demonstrations, real-world applications) to inspire interest • Helps maintain an organized, calm, and productive working atmosphere during lab sessions • Promotes teamwork, cooperation, and respectful interactions among students	
16. Comments:	
17. Conflict Resolution: Skills in addressing and resolving conflicts within the team. (5) • Identifies potential conflicts early and addresses them proactively • Listens to all parties involved and demonstrates impartiality and fairness • Communicates clearly and respectfully to resolve disagreements • Implements solutions that maintain team cohesion and a positive work environment • Follows up to ensure conflicts are fully resolved and do not recur	
17. Comments:	
Total over 30	0

5. Student Engagement and Support (15 points)

18. Support for Student Learning: Effectiveness in assisting students with lab work and inquiries. (5) • Provides clear guidance and assistance during lab activities • Responds promptly and accurately to student questions and concerns • Demonstrates patience and understanding when helping students overcome difficulties • Encourages independent problem-solving while providing appropriate support • Monitors student progress and offers additional help when needed	
18. Comments:	
19. Encouragement of Critical Thinking: Ability to stimulate student interest and encourage analytical thinking. (5) • Prompts students to ask questions and explore different perspectives • Encourages problem-solving and logical reasoning during lab activities • Uses real-world examples and scenarios to connect theory with practice • Challenges students to analyze results, draw conclusions, and reflect on outcomes • Provides constructive feedback that fosters independent and critical thinking	
19. Comments:	
20. Adaptability to Student Needs: Responsiveness to diverse student learning styles and needs. (3) • Recognizes and respects different learning styles, abilities, and paces • Adjusts teaching methods and explanations to meet individual student needs • Provides additional support or alternative approaches when students struggle • Encourages inclusive participation and engagement from all students • Monitors student understanding and adapts instruction to maximize learning outcomes	
20. Comments:	
21. Contribution to Lab Improvements: Initiative in suggesting or implementing improvements to lab procedures or practices. (2) • Proactively identifies areas where lab procedures or practices can be improved • Suggests practical, innovative, or efficient solutions to enhance lab operations • Participates in implementing approved improvements effectively • Shares best practices and lessons learned with colleagues to benefit the team • Monitors outcomes of changes and recommends further refinements when necessary

Note:

Weight Redistribution

To ensure a fair and balanced evaluation process, weights assigned to evaluation criteria must reflect the relevance and responsibilities of the staff member's role. If a specific category does not apply to a staff member, the weight of that category can be redistributed among other relevant categories. This ensures that the total weight of all categories remains at 100%.

Step-by-Step procedure for Weight Redistribution

1. Remove the Weight of the Non-Relevant Category

- Identify the category that does not apply to the staff member's role.
- Subtract the weight of this category from the total weight (initially 100%).

2. Redistribute the Weight

- Distribute the removed weight proportionally across the remaining categories.
- Redistribution should reflect the relative importance of other categories to the staff member's responsibilities.

Academic Staff Annual Performance Evaluation Form

Employee Information:

Employee Name & Emp: No.:
Department: Mechanical
Position/Title:
Evaluation Period: - (**Eg:1st Jan - 31st December 2025)**

Evaluator Information:

Evaluator Name: ……
Position/Title: ……
Date of Evaluation: ……

Part I Professional Attributes (15 points)

1. Presentability and punctuality (3) ● No more than 2 days of coming in late per month ● Leaving early is not an approved practice ● Adherence to the Attendance policy ● Personal grooming and frequency of formal attire ● Frequency of Sick days, no pay leave and other emergencies.	
1. Comments:	
2. Adheres to the institution's academic policies (6) ● Lectures are not to be cancelled and conducted with LOs and Assessments in mind ● Weekly supervision is not to be reallocated or missed during any week. ● Setting Assessments prior to Unit/Module commencement ● Assessment handouts are to be made as planned without delays including exams and briefings. ● Ensuring student status updates are documented in a timely manner	
2. Comments:	
3. Collaborates with colleagues & Supervisor(s) (6) ● Ensuring HoD approval is sought for any deviation in standing procedure ● All collaborative matters are done with HoD approval. ● Interdepartmental support is provided only when instructed by the HoD to maintain the chain of command. ● Able to furnish accurate information for timely communication across departments including Admissions, Registrar and Finance. ● Appropriate support during the conduction of examinations, live feedback, labs.	
3. Comments:	
Total over 15	0

Part II Teaching Effectiveness (25 points)

Teaching Effectiveness - Course Delivery (15)	
4. Clarity of presentation and organisation of course material (6) ● Preparation of learner materials aligning with the achievement of learning outcomes ● Ability to explain concepts in a manner appropriate to the level of the learner ● Ability to recommend appropriate learner materials considering the level of the learners and their availability as employed learners	
4. Comments:	
5. Engagement of learners through interactive methods (6) ● Use of practical effective techniques to engage the learner in the learning process by encouraging the learner to interact ● Encourage learners to engage and interact by rewarding the participating learners	
5. Comments:	

6. Capacity to undertake concurrent unit/module deliveries (3) ● Ability to manage the timely grading of one unit while delivering the current unit; while setting assessments for a future unit.	
6. Comments:	
Teaching Effectiveness - Assessment Techniques (10)	
7. Variety and appropriateness of assessment methods used (3) ● Setting assessments using appropriate methods considering the availability of resources and time	
7. Comments:	
8. Timeliness and quality of feedback provided to students (3) ● Timely provision of formative feedback to students	
8. Comments:	
9. Efficiency in completing assessment grading (4) ● Grading student work adhering to the agreed grading deadline ● Maintaining accurate assessment records including up-to-date assessment trackers	
9. Comments:	
Total over 25	0

Part III Subject Knowledge/Expertise (20 points)

Subject Knowledge/Expertise - Depth of Knowledge (15)	
10. Understanding of the subject matter at an advanced level (10) ● Ability to teach level-appropriate topics with the learner in mind ● Using level-appropriate material such as books, journals, exercises, labs, demonstration videos, and case studies	
10. Comments:	
11. Ability to connect theory with practice (5) ● Lesson delivery must ensure learners are prepared for final assessment ● Inclusion of demonstrations, lab work, case studies, etc.	
11. Comments:	
Subject Knowledge/Expertise - Continuous Learning (5)	
12. Participation in professional development related to the subject area (5) ● Participation in at least 5 Pearson training sessions per year	
12. Comments:	
Total over 20	0

Part IV Use of Technology (12 points)

13. Proficiency in using learning management systems and other educational tools (7) ● Timely upload of learner material and session recordings ● The use of facilities provided by the system to provide sufficient and attractive education service ● Maintenance of learner materials up to date on the system and posting announcements of any update as and when such activity has taken place. ● Creation of assignment submission options on time to collect student submissions. ● Ability to use the system efficiently to provide feedback using the facilities provided by the system. ● Publishing results on the system adhering to the agreed deadline.	
13. Comments:	
14. Use of technology to enhance student learning and engagement (5) ● Using a combination of Slides, Writing Tablets and video captures of demonstrations	

• Use various options provided by the system to engage students in the learning process, e.g. posting quizzes, questionnaires, and so on. • Publish related additional learner materials for interested learners to go through	
14. Comments:	
Total over 12	0

Part V Student Engagement (12 points)

Student Engagement - Interaction (10)	
15. Ability to create an inclusive environment that fosters student participation (6) • No discrimination of any sort taking place • No preferential treatment detected • Always being courteous and professional with students. • Not being the subject of a student complaint where the staff member is found to be guilty	
15. Comments:	
16. Responsiveness to student inquiries and concerns (4) • Timely and appropriate responses to a student query within 2 working days • Even if more time is needed to respond, update the student on the timeline for receiving a potential solution/answer.	
16. Comments:	
Student Engagement - Motivation Techniques (2)	
17. Use of diverse strategies to motivate and inspire students (2) • Minimise breaks during lessons, no pauses in delivery or forced interaction • Inclusion of exercises and activities for students to complete or engage at their own pace	
17. Comments:	
Total over 12	0

Part VI Curriculum Development (8 points)

Curriculum Development - Curriculum Design (8)	
18. Ability to contribute to the development and improvement of the curriculum (5) • Preparation of complete and supportive learner materials • Formative tasks included in delivery to aid summative assessments	
18. Comments:	
19. Integration of current research and practice into course content (3) • Using material from the recommended reading material • Minimising scrap work from the internet	
19. Comments:	
Total over 8	0

Part VII Language Competency (4 points)

20. Speaking Skills (2%) • Conveys ideas in a structured and concise manner • Uses appropriate language and professionalism when speaking	
20. Comments:	
21. Writing Skills (2%) • Communicates ideas clearly and concisely in written form • Uses proper grammar, spelling, and punctuation • Ensures accuracy and completeness in reports, emails, and documentation	
21. Comments:	
Total over 4	0

Part VIII Flexibility and Organisational Contribution (4 points)

22. Flexibility and Availability (2) ● Compliance with management requests for early or late shifts and holiday work, demonstrating adaptability to organisational needs	
22. Comments:	
23. Support for Organisational Branding (1) ● Active support and contributions to SCOT branding efforts, enhancing the organisation's reputation and visibility.	
23. Comments:	
24. Willingness to go Beyond Job Scope (1) ● Engagement in tasks and responsibilities that extend beyond the defined Job Description (JD), showing initiative and dedication.	
24. Comments:	
Total over 4	0

Weight Redistribution

To ensure a fair and balanced evaluation process, weights assigned to evaluation criteria must reflect the relevance and responsibilities of the staff member's role. If a specific category does not apply to a staff member, the weight of that category can be redistributed among other relevant categories. This ensures that the total weight of all categories remains at 100%.

Step-by-Step procedure for Weight Redistribution

1. Remove the Weight of the Non-Relevant Category
- Identify the category that does not apply to the staff member's role.
- Subtract the weight of this category from the total weight (initially 100%).

2. Redistribute the Weight
- Distribute the removed weight proportionally across the remaining categories.
- Redistribution should reflect the relative importance of other categories to the staff member's responsibilities.

EvaluationNote:

Weight Redistribution

To ensure a fair and balanced evaluation process, weights assigned to evaluation criteria must reflect the relevance and responsibilities of the staff member's role. If a specific category does not apply to a staff member, the weight of that category can be redistributed among other relevant categories. This ensures that the total weight of all categories remains at 100%.

Step-by-Step procedure for Weight Redistribution

1. Remove the Weight of the Non-Relevant Category
- Identify the category that does not apply to the staff member's role.
- Subtract the weight of this category from the total weight (initially 100%).

2. Redistribute the Weight
- Distribute the removed weight proportionally across the remaining categories.
- Redistribution should reflect the relative importance of other categories to the staff member's responsibilities.

Academic HoD Annual Performance Evaluation Form

Employee Information:
Employee Name & Emp: No. : Ms. Shamila Erani (Emp. 113)
Department: Business Management
Position/Title: Head of Department
Evaluation Period: 1st March 2025 – 28th February 2026

Evaluator Information:
Evaluator Name: Mr. Yohan Deshpriya
Position/Title: Head of School, Business Management
Date of Evaluation: Evaluation,Evaluation

Part I Professional Attributes (15)

1. Presentability and punctuality (3) ● No more than 2 days of coming in late per month ● Leaving early is not an approved practice ● Adherence to the Attendance policy ● Personal grooming and frequency of formal attire ● Frequency of Sick days, no pay leave and other emergencies.	
1. Comments:	
2. Adheres to the institution's academic policies (6) ● Lectures are not to be cancelled and conducted with LOs and Assessments in mind ● Weekly supervision is not to be reallocated or missed during any week. ● Setting Assessments prior to Unit/Module commencement ● Assessment handouts, including exams and briefings, are to be made as planned without delays. ● Ensuring student status updates are documented in a timely manner	
2. Comments:	
3. Collaborates with colleagues & Supervisor(s) (6) ● Ensuring HoS approval is sought for any deviation from the standing procedure ● Interdepartmental staff usage is done via the managerial structure ● Accurate and timely communication across departments, including Admissions, Registrar, Admin and Finance. ● Appropriate collaboration during the conduct of examinations, live feedback, and labs.	
3. Comments:	
Total over 15	0

Part II Leadership & Management (35)

Departmental Leadership	
4. Effectively sets and communicates departmental goals. (8) ● All collaborative matters are done with HoS being informed ● Instructions to staff and departmental activities are logged on a Task-by-Task basis. ● Departmental meetings are held and recorded for posterity and future training. ● Effective use of the Google Calendar.	
4. Comments:	
5. Provides clear guidance and support to department members (6) ● One-to-one or group advice is given prior to tasks being carried out. ● Training sessions are held, recorded and shared. ● Strictly prohibits staff under the HoD from being trainers to other staff unless under strict supervision.	

• Takes disciplinary actions on staff who assume managerial responsibilities or do not transparently communicate individual inquiries.	
5. Comments:	
6. Demonstrates strategic planning in program delivery and development (6) • Sets the Academic Calendar correctly, in a timely manner with clear event labels. • Ensures that all functionality of the Calendar remains intact and records are up-to-date. • Engages in developing curricula and new partnerships • Clear evidence of delegating planning work, such as setting calendars and assessment planning to Programme leaders	
6. Comments:	
Staff Development & Support	
7. Handles conflict resolution and staff concerns effectively (7) • Identifies and Documents staff conduct and concerns • Involves HoS, HR or relevant HoDs when addressing concerns. • Commands respect of subordinates and maintains a disciplined operation • Encourages and Ensures staff training from partners and other recognised bodies (i.e. Pearson CPD)	
7. Comments:	
8. Ensures workload distribution and support (8) • Document workload allocation daily (preferably) or weekly as a minimum. • Monitor task completion on a weekly basis. • Work allocation must not be equitable as this will create disharmony among equally qualified STEM graduates.	
8. Comments:	
Total over 35	0

Part III Academic Programme Management (26)

Accreditation & Regulatory Compliance	
9. Ensure well-run Pearson BTEC HNDs (8) • Set annual Assessment plans and ensure the timeline is maintained. • Assessments to go out at Unit commencement • Unit delivery to take place within the agreed timeline (6 weeks for non-project units) • Annual maintenance of Policies and Handbooks • Grading to be completed within 10 weeks of Unit commencement and results release (i.e. Pass, Resit, Retake Status to be disclosed to students). • Preparedness for ISV and prompt (accurate) document presentation. • Ensure correct student registration and timely graduation.	
9. Comments:	
10. Ensure well-run DMU L6 top-ups (10) • Set fixed Assessment plans, with reassessments to be available in time for Assessment boards. • DMU Moderated Assessments to go out at Module commencement • Assessment to be graded in a timely manner and DMU expectations to be met in student work. • Annual maintenance of Handbooks and PAEs to be updated at least twice a month. • Manage VLE, IOS, APOs and Deferral/Extensions. • All moderation activities to meet DMU expectations and receive positive External Examiner reviews.	
10. Comments:	
11. Ensures additional support for all programmes (4) • Bridging modules to be kept up-to-date and relevant • Run additional support sessions including revision and exam preparation • Arrange facilities for laboratories and site visits.	

• Formative feedback for all DMU Turnitin assignments	
11. Comments:	
12. Keeps accurate academic records and reports. (4) • Up-to-date and Accurate Assessment Trackers maintained for DMU and HNDs. • Student status (Active, Suspended, Withdrawn, Dropout, Graduate) maintained correctly with frequent cross-checking with Finance/Admissions. • Ability to provide Student information and current academic achievements at the point of request.	
12. Comments:	
Total over 26	0

Part IV Student Support & Operational Support (24)

Student Performance & Engagement	
13. Monitors student progress and outcomes effectively. (5) • Monitor DMU students' IP progress • Monitor if the IP supervisor is providing valid (SMART) feedback on a regular basis. • Ensure that all staff maintain the Supervisory journal for IPs at a high standard. • Email to students regarding IP participation and Assessment submissions.	
13. Comments:	
14. Implements support mechanisms for at-risk students. (5) • Evidence of contacting students for Deferrals and Extension • Reminders for students with regard to Due dates, deadlines and support • Involvement of Admissions and Finance to support students.	
14. Comments:	
15. Demonstrates strategic planning in program delivery and development (2) • Having curriculum modification and Rubric amendments done when needed. • Working on new qualifications and partnerships.	
15. Comments:	
16. Management of Admissions Requirements (4) • Timely and Accurate approval of Students to Admissions • Ensuring the student portfolios are accurate and Academic responses are correct	
16. Comments:	
17. Management of Registras Requirements (4) • Timely responses to Letter requests • Accurate and Timely correspondence to Registartins, IOS and re-entry information.	
17. Comments:	
Flexibility and Organizational Contribution	
18. Flexibility and Availability (2) • Compliance with management requests for early or late shifts and holiday work, demonstrating adaptability to organizational needs	
18. Comments:	
19. Support for Organizational Branding (1) • Active support and contributions to SCOT branding efforts, enhancing the organization's reputation and visibility.	
19. Comments:	
20. Willingness to go Beyond Job Scope (1) • Engagement in tasks and responsibilities that extend beyond the defined Job Description (JD), showing initiative and dedication.	
20. Comments:	
Total over 24	0

Scoring Guide

- Absolute Values are used.
- The score can exceed 100 if high values are allocated to exceptional achievements, while no penalties exist. However, this will be a very rare achievement.
- It is essential to mention the additional points added in the comments sections if special points are added to exceptional achievements or contributions.
- No weight redistribution is used, as Points are deducted for failures based on the guidance bullets from the given maximum value.

Student Support (Student Admissions) Annual Performance Evaluation Form

Note:

Weight Redistribution

To ensure a fair and balanced evaluation process, weights assigned to evaluation criteria must reflect the relevance and responsibilities of the staff member's role. If a specific category does not apply to a staff member, the weight of that category can be redistributed among other relevant categories. This ensures that the total weight of all categories remains at 100%.

Step-by-Step procedure for Weight Redistribution

1. Remove the Weight of the Non-Relevant Category
- Identify the category that does not apply to the staff member's role.
- Subtract the weight of this category from the total weight (initially 100%).

2. Redistribute the Weight
- Distribute the removed weight proportionally across the remaining categories.
- Redistribution should reflect the relative importance of other categories to the staff member's responsibilities.

The 360' performance evaluation system/application should cover the following

The basic concept of 360-degree evaluation is that it assesses an employee from multiple perspectives within the organization, including the Head of Department/Department Manager, subordinates, peers, and the employee's own self-evaluation.

Basic things should be covered,

360° Evaluation Evaluator Assignment

For Academic Departments

The Academic Department comprises the Head of Department (HoD), Senior Lecturers, Lecturer Grade I, Lecturer Grade II, Assistant Lecturers, Lab Technicians, and Academic Coordinators.

In the case of conducting a 360° evaluation for a Lecturer Grade II employee, the evaluation process shall be structured as follows,

1. The employee shall complete a self-evaluation.
2. The Head of Department (HoD) shall act as a primary evaluator.
3. At least two (02) Senior Lecturers or Lecturer Grade I staff shall be assigned as evaluators.
4. At least two (02) peers of the same grade or subordinate level (e.g., Assistant Lecturers) shall also be included as evaluators.

- An option should be provided within the system for the selected peer evaluators (Level 3 and Level 4) to confirm whether they are sufficiently familiar with the employee to conduct a fair evaluation. If not, they may decline with a valid reason or recommend a suitable alternative evaluator of the same level, subject to approval by the HoD.
- Each employee shall participate in a minimum of two (02) other employees' evaluations to ensure balanced engagement in the process.
- The selection of Level 3 and Level 4 evaluators shall be automated through the system based on departmental data uploaded in advance, rather than being assigned manually.

For the evaluation of a Head of Department (HoD), the process shall be structured as follows,

1. The HoD shall complete a self-evaluation.
2. The Head of School (HoS) shall act as the primary evaluator.
3. At least two (02) other HoDs shall be assigned as peer evaluators.
4. At least three (03) subordinate-level staff members (e.g., Lecturers) shall also be included as evaluators.

- The selection of Level 3 and Level 4 evaluators shall be automated through the system based on departmental data uploaded in advance, rather than being assigned manually.

For Non-Academic Department

The Non-Academic Department comprises the Department Manager, Assistant Manager(s), Senior Executive(s), Executive(s), and Junior Executive(s).

In the case of conducting a 360° evaluation for a non-academic employee, the evaluation process shall be structured as follows,

1. The employee shall complete a self-evaluation.
2. The respective Department Manager or immediate supervisor shall act as the primary evaluator.
3. At least two (02) senior-level staff members (e.g., Assistant Manager or Senior Executive level) shall be assigned as evaluators.
4. At least two (02) peers of the same grade or subordinate level shall also be included as evaluators.

- Each employee shall participate in a minimum of two (02) other employees' evaluations to ensure balanced participation in the process.
- The selection of peer and subordinate evaluators shall be automated through the system based on departmental data uploaded in advance, rather than being assigned manually.
- If a department does not have a sufficient number of staff members at the required levels to assign as evaluators, the system shall provide the option for evaluators to be assigned either manually or automatically through the system, as appropriate.

For the evaluation of a Non-Academic Department Manager, the process shall be structured as follows,

1. The Department Manager shall complete a self-evaluation.
2. COO shall act as the primary evaluator.
3. At least two (02) other Department Managers shall be assigned as peer evaluators.
4. At least three (03) subordinate-level staff members (e.g., Assistant Managers, Senior Executives, Executives, or Junior Executives) shall also be included as evaluators.

- The selection of Level 3 and Level 4 evaluators shall be automated through the system based on departmental data uploaded in advance, rather than being assigned manually.

Note: evaluator levels 3 and 4 should be anonymous.

Marks Allocation – 360° Evaluation System

The allocation of marks in the 360° evaluation system shall be structured as follows,

- The primary evaluator (COO / Head of School / Head of Department / Department Manager) shall contribute 75% of the total evaluation marks.
- The employee's self-evaluation shall contribute 5% of the total evaluation marks.
- All other evaluators (peer and subordinate level evaluators) shall collectively contribute 20% of the total evaluation marks.

Peer/Subordinate Evaluation Calculation

The marks awarded by peer and subordinate evaluators shall be averaged before applying the weighting.

For example:

If two subordinate evaluators provide marks of 80% and 75% respectively, the average shall be calculated as follows,

(80 + 75) ÷ 2 = 77.5%

This average score will then be weighted at 20% of the total evaluation.

It will be 77.5 × 20% = 15.5%

Self-Evaluation Calculation

If the employee's self-evaluation score is 80%, it will be calculated as follows:

80 × 5% = 4% contribution to the total marks.

Final Score Calculation

The final evaluation score shall be the sum of,

Primary evaluator contribution (75%)

Self-evaluation contribution (5%)

Peer/Subordinate average contribution (20%)

Accordingly, the total marks shall be calculated as the weighted aggregate of all evaluation components.

- The final evaluation marks shall be made visible to the respective staff member. The system shall also provide an option for the staff member to acknowledge the results and provide comments or feedback, including acceptance or any disagreement with justification.

Performance Level

Percentage Range Performance Rating

90 - 100% Outstanding

80 - 89% Meets Expectations

50 - 79% Meets Minimal Expectations

41 - 49% Needs Improvement

Below 40% Unsatisfactory
